General info about STHIX

- STHIX has been running since late 2006

  - Started up as a purely free IXP and has been running based on sponsors until late 2012 where it became a commercial company

- Focus on ISPs based in the Stockholm area

- There is a basic members fee for all members that includes one 1GE port

- The membership fee includes free access to all member features such as portal access.

Infrastructure

- STHIX has distributed infrastructure set-up

- 8 PoPs available

- Main PoPs are:

  - Telecity Bromma (TC1)

  - Stokab KN7

- Connections can be 1G or 10G
