

RIPE NCC DNSMON Roadmap

Romeo Zwart
GII Manager
RIPE NCC

DNSMON Roadmap

- DNSMON service: Business as Usual
 - small outages caused by aging TTM back-end
- DNSMON service will continue to exist
 - Possibly temporary lower number of vantage points (TTM wind down)
- Integration with RIPE Atlas (ATLAS Anchors)
- Presentation interface (GUI) will move into RIPEstat

DNSMON Roadmap (2)

Change in charging model expected

- pending approval of charging scheme 2013.
- Under new model: current users must become members
- Service open to all members in second half 2013
 - we will maintain focus on TLDs and similar
