

Invitation to
ICANN GNSO ISPCP

RIPE65 – September, 2012

The Internet Service Providers
Connectivity Providers Constituency,
ICANN Generic Names Supporting
Organization

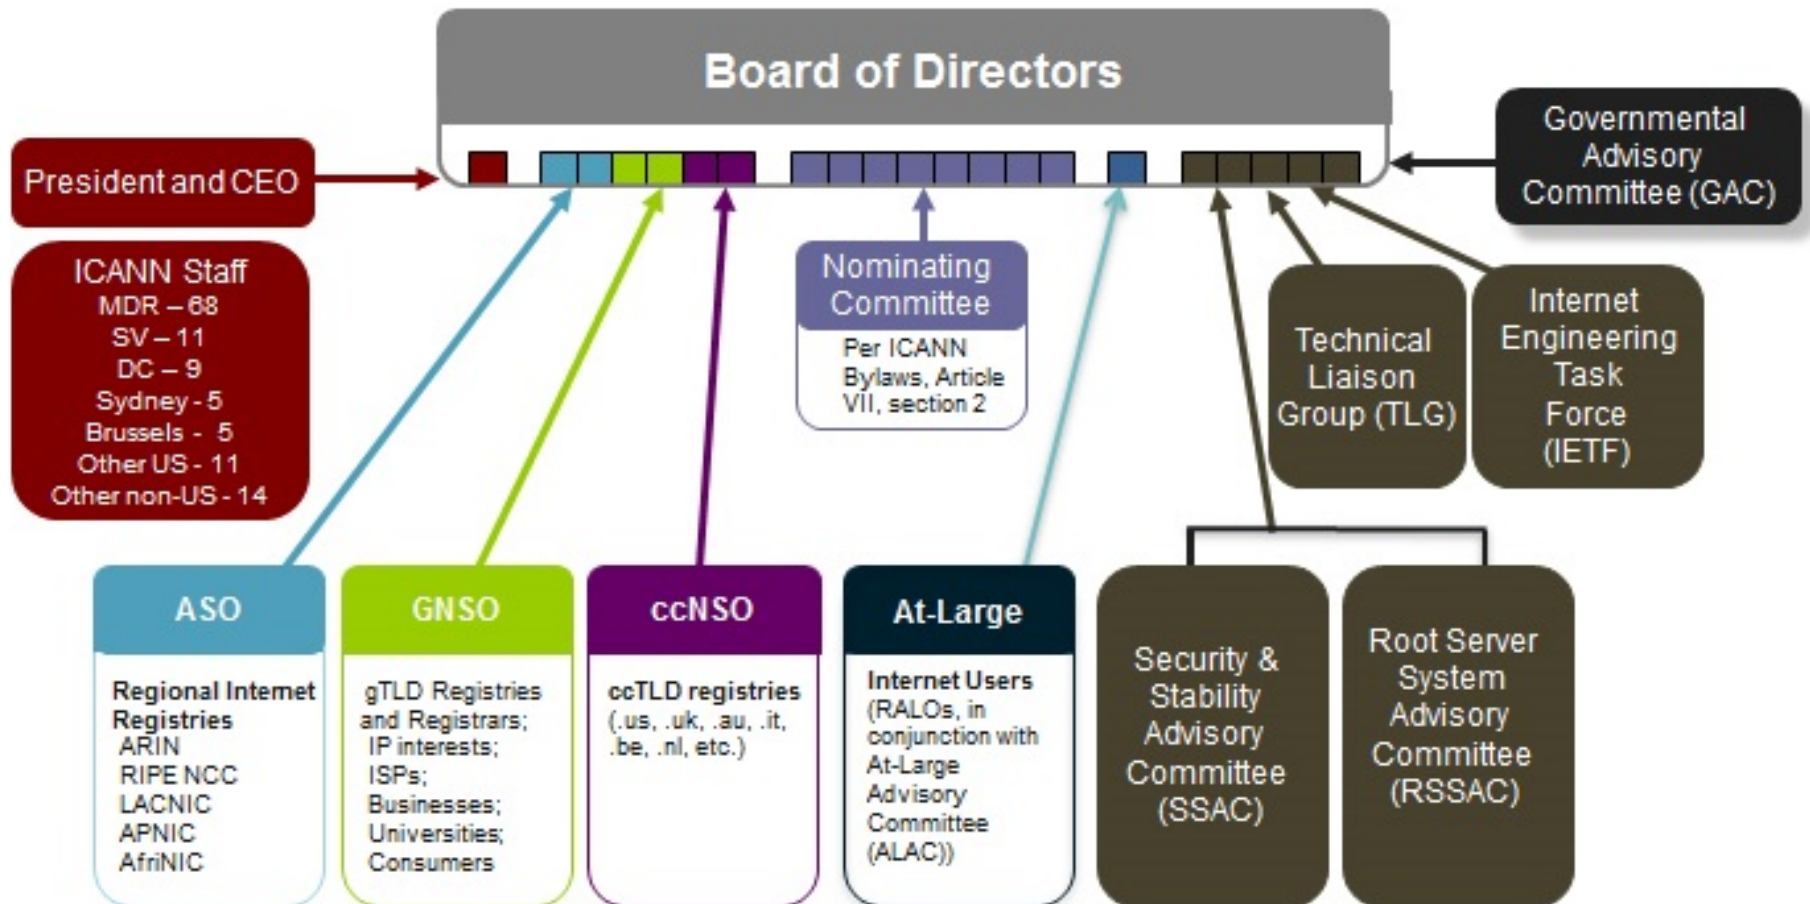

What is ICANN

- Internet Corporation for Assigned Names and Numbers, <http://www.icann.org/>
- Coordinates the global Internet's unique identifiers and stable operation of the system of them, at the global level
 - Domain Names, IP numbers and protocol numbers
- Three meetings held in a year touring all around the world

Organization Structure - January 2011

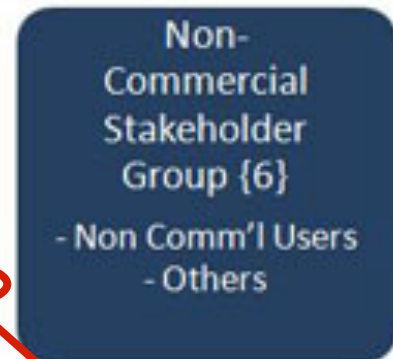

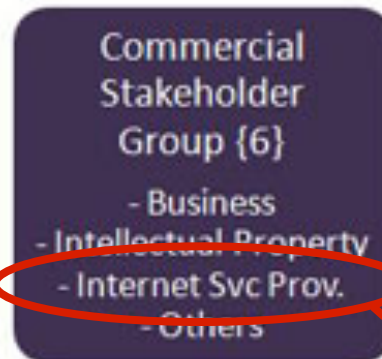

ICANN Multi-Stakeholder Model

What is GNSO

- Generic Names Supporting Organization
- Is responsible for developing substantive *policies relating to gTLDs* (generic top-level domains) and recommending them to the ICANN Board
- Multi-stakeholder approach
 - Contracted & Non-Contracted Parties
 - Stakeholder Groups and Constituencies to represent various stakes

New GNSO Council Organization: October 2009

Legend: { } Voting; () Non-Voting

*Non-Voting Liaison – Counted as a Member

**Observer – Not Counted as a Member

We are here!

What is ISPCP

- Internet Service Providers and Connectivity Providers Constituency
 - Within GNSO, and its Commercial Stakeholder Group
- Membership Criteria: ISPs, carriers and associations of those
- Important: It's YOU!!

You are being much more influenced by gTLD policies

- 1200+ new gTLDs are being injected into the root DNS zone in a couple of years
 - Are you familiar with the details?
 - No impact to you in future?
- In ISPCP, you can get involved to gTLD policy making process and have closer eye

Thank you!

- Any questions?
 - Catch me up here during this week
 - E-mail to secretariat@ispcp.info
- Next ICANN Meeting is around the corner:
 - Toronto, Canada, 14 – 18 October, 2012
